Since this past February GMM, as Chief steward of unit3 I continuously participated on several local committees to ensure the fulfillment of benefits and rights of U3 members in different perspectives and have made lots of progress.

Through the joint effort with the benefit committee, U3 has secured 400 dollar and 300 dollar per academic year for the postdoc Professional Development Fund and Health Care Spending Account, respectively. As a member of adjudication committee for administering the Postdoctoral Fellow Support Fund since March, I had made tremendous input through the committee discussion and helped process eight applications timely so far to make sure those U3 members can get the support fund as soon as possible during this difficult time. In addition, I am also working hard to expand the U3 steward network and able to have two new members jointed as department stewards recently.

Thanks,

Kezhuan Gu
