

## **Executive Report – January 2026**

### **Equity Action Committee (“EAC”)**

We have continued to make progress with the book review we are now planning for January 2026. The title of the book is *The Skin We’re In* by Desmond Cole. We plan to invite Desmond Cole to the book review. The poster for the event has been designed by a member of the committee but awaiting final details. There will be further communication about the event in the coming weeks. Also, please plan to join/attend EAC’s meeting this month.

Remember, CUPE’s Union Education Program offers valuable educational materials to help us stay informed and equipped to address equity and harassment concerns effectively. These resources are always available to support our shared commitment to fostering a more inclusive environment. See link [Union Education | Canadian Union of Public Employees](#)

In solidarity.
