

Undergraduate Officer Report - AGM 2026

Hello friends!

This past year has been filled with many great accomplishments for the local. We wrapped up Unit 4 bargaining with a successful ratification vote after many hours put into mobilizing, canvassing, and events. We hosted successful events and drop-in socials where members could connect, ask questions, feel involved with the local, etc.

Since the past AGM here is a brief overview of some of the work I have done in the role:

1. Attended drop-in socials to support other exec members and talk to members of all units.
2. Attended scheduled GMMs and executive meetings to keep myself updated on new policies and new events happening within the local.
3. Regularly checked and responded to emails from members to ensure all inquiries were answered.
4. Canvassed and supported Unit 4, including when it was time for a strike vote and ratification vote where I'd keep members informed and answer questions/concerns.
5. Attended Unit 4 bargaining days as we continued to negotiate a first collective agreement.

My main recommendations for the role moving forward are to continue with outreach to members. Facilitating events for members and attending events other execs are hosting are great options as it is a great way to connect, support, and answer any questions that may come up from members. Additionally, being involved with the bargaining of new collective agreements and helping to mobilize members during a time of change. Overall, staying involved with the local and staying connected to members is one of the biggest recommendations I have moving forward.

It's been an honour being a part of the executive team the past two years and being able to be in the role of Undergraduate Officer. Meeting members and working with the locals staff and execs have been such an amazing experience.

In solidarity,
Elissa Cunningham
